COMPANY PROFILE

COPYRIGHT 2024

ABOUT OUR COMPANY

MEP ERICTRIC TECHNOLOGY LTD is a leading MEP (Mechanical Electrical and Plumbing) contracting company started operating in Rwanda since 2016. We specialize in supply, design, installation, and maintenance of mechanical, electrical and plumbing systems for commercial, residential, and industrial clients.

Our clients include commercial property owners, private homeowners, industrial factories, and government agencies. We have worked on a wide range of projects, from small residential installations to large commercial and industrial projects.

“Contact us today to learn more about how we can help you with your upcoming project and how our MEP solutions can meet your specific requirements.”

OUR SERVICES

Our team of certified engineers and technicians has extensive experience in MEP systems design, installation, and maintenance. We use the latest technology and equipment to provide the highest level of service, ensuring that our clients receive cost-effective and energy-efficient solutions.

We offer a wide range of MEP services, including:

MECHANICAL SERVICES

- HVAC Systems Design & Installation
- Air Conditioning Systems supply and installation
- Ventilation and Exhaust System Installation and Maintenance
- Elevator / escalator supply and installation
- Firefighting Systems

ELECTRICAL SERVICES

- Electrical Systems Design & Installation (transmission, substations, distribution...)
- Lighting and Power Supply
- Renewable Energy Systems (Photovoltaic systems, hydro power plants, wind farms...)
- Low Voltage Systems (distribution and domestic installation)

PLUMBING SERVICES

- Plumbing Design & Installation
- Water Heating Systems
- Drainage and Sanitary Systems
- Water Supply and Distribution Systems
- Plumbing Maintenance

ELECTRICAL TRANSMISSION CONSTRUCTION

- Transmission Line Design & Engineering
- Substation Design & Construction
- Transmission Line Installation
- Electrical System Testing & Commissioning
- Power System Protection & Control
- High Voltage Cable Installation
- Maintenance of Transmission Lines & Substations

WHAT WE DO

At MEP ERICTRIC TECHNOLOGY LTD, we take pride in delivering top-quality MEP services for a diverse range of commercial, residential, and industrial projects. Our expertise in mechanical, electrical, and plumbing systems extends to specialized services such as the supply, installation, and maintenance of elevators/escalators, CCTV cameras, firefighting systems, and domestic electrical installations.

We understand how important reliable and efficient mechanical systems are in ensuring safety, security, and comfort in your property. That's why we have a team of skilled engineers and technicians who are dedicated to delivering customized solutions that cater to your specific needs.

Whether you need elevator or escalator installation and maintenance, CCTV camera installation and maintenance, firefighting system installation and maintenance, or electrical domestic installation services, our team has a broad range of experience to help you get the job done right.

At MEP ERICTRIC TECHNOLOGY LTD Contractors, we work to stay ahead in the industry, equipping ourselves with the latest technology and equipment to optimize performance and ensure maximum efficiency and safety. We continuously work to meet and exceed regulatory and performance

standards, ensuring that our clients receive the best possible services from us.

Our aim is to provide you with comprehensive and innovative MEP solutions that deliver quality results on time and within budget. We pride ourselves on delivering total client satisfaction, and we remain committed to providing the highest quality of services to our valued clients.

COMPETITIVE ADVANTAGE

MEP ERICTRIC TECHNOLOGY LTD Contractor has several competitive advantages, including:

Quality Service: We are committed to delivering high-quality MEP services that meet and exceed the expectations of our clients.

Experience: Our team has extensive experience in MEP systems design, installation, and maintenance, ensuring that our clients receive professional and reliable services.

Sustainable Solutions: We aim to provide sustainable MEP solutions that deliver long-term benefits to our clients and the environment.

Customer Service: We understand that customer satisfaction is essential to the success of our business.

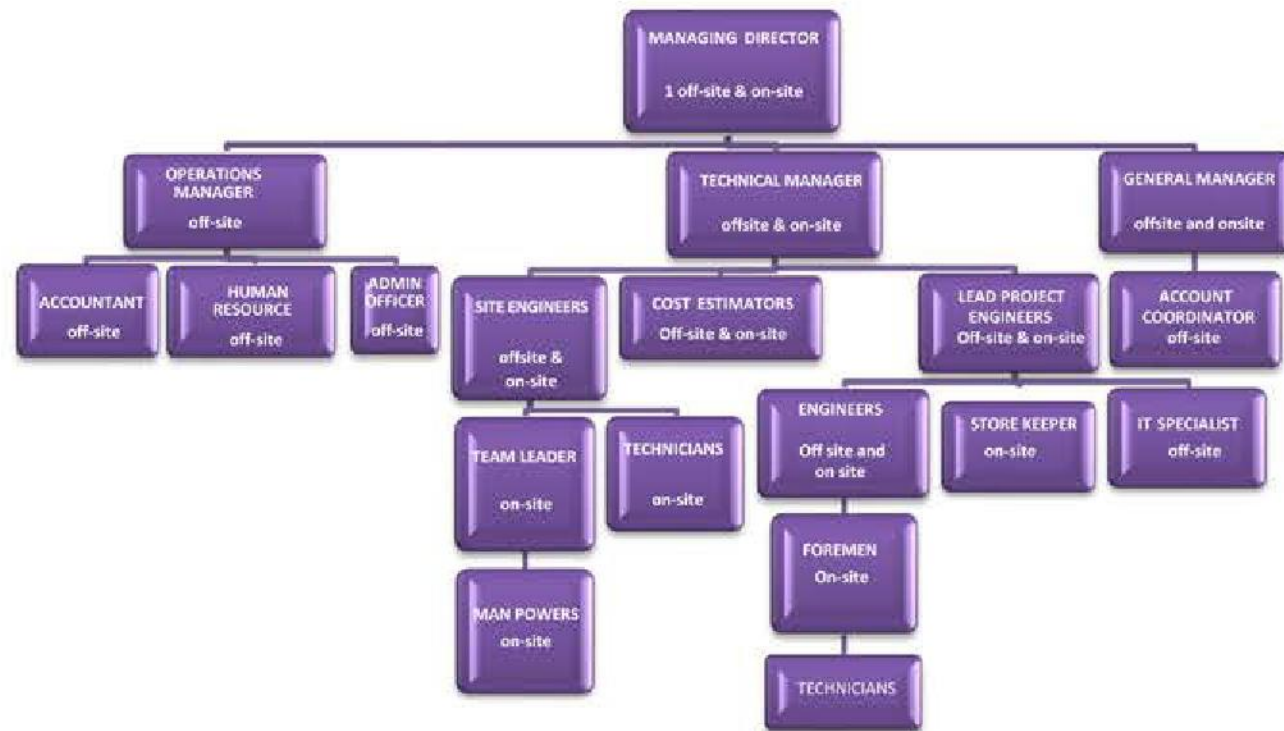

Our team provides excellent customer service, working closely with our clients to understand their needs and provide customized solutions that meet their requirements.

"Contact us today to learn more about how we can help you with your upcoming project and how our MEP solutions can meet your specific requirements."

OUR MISSION

Our mission is to provide high-quality MEP services to our clients while delivering excellent customer service. We aim to exceed our clients' expectations by providing cost-effective and energy-efficient solutions with the goal of delivering sustainable benefits for our clients.

OUR VISION

Our vision is to be a leading provider of innovative, sustainable MEP solutions in Africa. We strive to provide clients with integrated MEP systems to improve building performance,

TESTIMONIAL

"I am Nkeramihigo Jean Bosco I own many buildings in Kigali, I had the pleasure of working with MEP ERICTRIC TECHNOLOGY LTD Contractor on a commercial project (supply and install of ELEVATOR & GENERATOR) in one of my house called IKAZE HOUSE located at Remera. From start to finish, they provided excellent service, working closely with our team to ensure we received the best solutions for our needs. Their team of engineers and technicians was professional, knowledgeable, and experienced, answering all of our questions and providing us with cost-effective and energy-efficient solutions that exceeded our expectations. We were impressed by their attention to detail and quick turn-around times. They delivered all the supplies on time and within budget, and their work quality was exceptional. We are extremely satisfied with the services we received from MEP ERICTRIC TECHNOLOGY LTD and highly recommend them to anyone in need of MEP (Mechanical electrical and plumbing)services."

"Contact us today to learn more about how we can help you with your upcoming project and how our MEP solutions can meet your specific requirements. "
